

Endorsement Letter from:

Bill Heard Chevrolet “World’s Largest Chevrolet Dealer”

U.S. Temp Tag
Chris Soape
President
Austin, TX

Dear Chris,

Thanks for all your help in getting this program up and running. We no longer have to worry about writing a record of every Red Tag we issue. We no longer have to worry that it's legible and contains exact information. We can now print out every day the exact number and types of tags issued in a report format. Recently, we had an audit by the State of Texas and passed with flying colors thanks to U.S. Temp Tag.

During the first few weeks of use, we discovered some changes that our company wanted to make involving users, logons and dates on reports. Your friendly staff helped get us exactly what we were looking for. In a matter of hours in most cases, the programming changes were fluid and worked exactly the way we needed them to. Their guidance on selection of the color laser printer and the setups were invaluable. Now the whole process works seamlessly with our delivery center. The printer we selected was networked, so even our sales managers can print directly to it when the need occurs.

We also like the fact that you automatically reorder supplies for us, so we will never run out at a critical moment. We sell over 800 vehicles per month, and this process has helped us in many ways as well as conformity.

Sincerely,

Andy Kessner
